*The Acting General Manager advised that the WHS summary report now includes breakdown of risk rating and overview of action taken, as requested at the last meeting. The Acting Chief Executive Officer agreed to seek advice and confirm whether Committee members are Responsible/Prescribed Officers under the Act. The Committee indicated that if members are Officers under the Act, ongoing due diligence reports would be required.

The Acting General Manager confirmed that the Corporate Risk Register is in progress. A risk management workshop, facilitated by Mr Cheater, was recently held and 8 risks identified. Staff will identify controls for these risks prior to presenting an updated Corporate Risk Register to the Alwyndor Management Committee.

The Committee queried when the risk rating system for feedback would flow through to the analysis reports and requested that priority rating be included in the next report.

The Acting General Manager confirmed there are no new legal or industrial matters.

The Acting General Manager provided a verbal update on the recruitment of a Residential Services Manager, ACFI Manager, Care Manager Residential and Care Manager Home Support.

The Committee discussed the CCTV policy and how best to consider Alwyndor’s position on cameras in rooms. The Chairperson indicated that Council’s policy is explicit that no private cameras are permitted but does not cover the nuances of addressing CCTV in an aged care setting. The Committee requested a review that considers industry, consent, covert and overt, safeguards, pros and cons, all risks including industrial relations and financial implications, to assist the Alwyndor Management Committee with considering Alwyndor’s position on covert and overt cameras in private rooms.

   In addition, the disclosure of this information would, on balance, be contrary to the public interest. The public interest in public access to the

commercial advantage to a third party regarding the sourcing and employment of those resources.

In addition, the disclosure of this information would, on balance, be contrary to the public interest. The public interest in public access to the meeting has been balanced against the public interest in the continued non-disclosure of the information. Type of Audit: Feedback Analysis May 2019
Date Audit Completed: 06/06/2019
Completed by: S. Pedler, Acting BPIC
There was a total of 69 feedback reports for May 2019.

Complaints for residential services have decreased with a total of 20 for May, compared to 34 for April. Food had a total of 4 complaints, 11 less than April. Food complaints were completed by staff (2) and residents (2). The staff food issues related to equipment requirements. Additional equipment such as crockery and cutlery has been ordered and once in place should resolve the issue. The 2 resident complaints about food are related to food quality and type and these were forwarded to the cook for action.

Care issues resulted in 5 complaints. All complaints have been actioned and meetings held with the customer or family member where required. 6 complaints were received from staff about rostering issues (3) and handover (3). A continuous improvement plan is in place to improve the handover process and rostering issues are under investigation.

The SAC rating for all complaints has been entered in the Feedback Database from 1 May.
Level 3 Rating = 8  (Minimal or No Harm)
Level 4 Rating= 15  (No Harm or Near Miss)
There were no complaints assessed as High or Extreme risk

As at 4 June 2019 there were 35 outstanding feedback items. Main items outstanding are
Care – 4
Food – 3
Handover- 6
Rostering – 5
Staffing Level-5
All department heads have been contacted for the issues to be actioned.

There were 2 Mandatory Reporting issues in May 19:
1. A resident was verbally abused by another resident in the facility. The targeted resident was initially shaken and this resident was comforted and regularly checked by staff and a GP visit conducted. Staff actions for the resident verbally attacking the other resident included: arranging a GP visit and review; updated behaviour chart and care plan by CN. Incident investigated and it was determined that no report to the Department was required.
2. A Resident intruded into another resident’s room due to confusion. There was a physical altercation between the two residents. Staff actions included: reporting the incident to SAPOL, NOK, and Department of Health; ongoing monitoring of both residents; referral to Dementia services Australia completed for 1 of the residents; completing behaviour chart for both residents; and arranging GP reviews for both residents. No further incidents reported.
The below table shows the number of feedback forms received by each service in the last eight months. The usage of the feedback system shows all stakeholders are familiar, encouraged and comfortable in using the feedback system.

This month we had no consumer surveys to submit into the feedback database therefore this has resulted in a decrease in the overall number of feedback forms received. The Service Quality Manager is attending staff and residents meetings to encourage feedback and increasing awareness of how to submit their ideas for continuous improvement.
