7. QUESTIONS BY MEMBERS

7.1 Without Notice  Nil

7.2 With Notice

7.2.1 Kaurna Native Title Claim Over Local Coastal Precinct

At the Council meeting held on Tuesday 25 November 2008 under "Urgent Business", Councillor Bouchée asked the following question:

Could the Administration please provide clarification regarding Indigenous access to the coast?

Manager Community Development, Mr Glen Millar’s response

The Kaurna Native Title Claim is extensive and very complex covering both the traditional lands and an extended area of approximately one kilometre into the Gulf St. Vincent between Rapid Bay in the south to almost Port Wakefield in the north and currently is subject to a future Federal Court decision with its next directions hearing scheduled for 13 March 2009. The City of Holdfast Bay is a "registered party" to the Kaurna Peoples Native Title Claim and is represented by Norman Waterhouse Lawyers who provided its most recent update tabled to Council in October 2008 (refer Report No: 473/08).

Over the next few months the Native Title Tribunal has been set the task, by the Federal Court, of endeavouring to "identify by mapping or as it may otherwise consider appropriate those parts of the claim area in respect of which any native title rights or interests may have been extinguished or partially extinguished". The Tribunal is also required to review the extent to which their claimed interests may be able to be protected on "water license holders". Obviously there is no possible way of predicting what the Native Title Tribunal may find and report to the Federal Court, but Council will be informed by Norman Waterhouse Lawyers after the next hearing in March.

Council can only play its part in fulfilling its role in relation to the Native Title Act 1993 (Commonwealth) and the Aboriginal Heritage Act 1988 (SA) and to date legal advice suggests that where land is held by the Council under a Certificate of Title, native title will be deemed to be extinguished over that land and the provisions of the Native Title Act 1993 (Commonwealth) will not apply. It is unlikely that native title can revive in circumstances where land has been granted freehold. It has been suggested in a strict legal obligation Council is required to have regard when considering projects over land owned by Council to the relevant provisions of the Aboriginal Heritage Act 1988 (SA).

If "Crown Land" is involved then native title may apply and Council must not assume that native title has been extinguished and is required to follow the future act regime contained within the Native Title Act when undertaking any projects on Crown land with the potential to affect native title.
In the City of Holdfast Bay Crown land basically adjoins the coastal region and Council is required to consult with the authorised representatives of the Kaurna Claimant Group in relation to projects on that Crown land and has obligations under the Native Title Act in respect to notification of works that may occur upon such Crown land. It is important for Council to know as much as possible about indigenous sites and issues within its area. Due to the complexity of both native title matters and issues relating to Aboriginal heritage, there is no one risk management technique that will ensure that Council is fully compliant with both Acts other than through open communication and liaison with any Aboriginal person, Kaurna or otherwise.

Background

Council is now required to consult by legislation on some very complex issues which are not easily described in a single sheet brochure.

It may be possible to expand the existing council ratepayer’s database to include an email address for a substantial amount of ratepayers/voters.

Such a data based could possibly data mined to highlight particular areas of interest, like “Whole of City”, “Ward issue” “street issue” or “suburb issue”

It could be done with a log in register system. The privacy issues would have to be addressed. The question will be if the cost of the technology is more than the savings.

Members will note that a number of resolutions within the 13 November 2008 Partridge House Advisory Committee minutes (namely Items 4.1, 4.3, 5.3 and 5.4) necessitate the expenditure of Council funds in order to action the resolutions. 15.2 Arts Advisory Committee

C161208/570 Councillor Heysen moved and Councillor Norton seconded that the minutes of the Arts Advisory Committee meeting held 18 November 2008 be received and the recommendations adopted.

CARRIED

General Manager City Services, Ms Rebecca Thomas’s, comment

Item 8.2 of the 18 November 2008 Arts Advisory Committee meeting minutes refers to the establishment of a dedicated arts and cultural coordinator role within Council’s Community Development Business Unit. Specifically it suggests Council revise the roles and responsibility of one of the Community Development Officer positions to better reflect the emphasis on arts and cultural development within Community Development.

While the general intent of the motion is recognised, it remains the role of the Chief Executive Officer to, amongst other things, manage the resources of the Council and give effect to human resource management principles.

Notwithstanding this, Members are advised that a review of the Community Development Business Unit structure, including the allocation of responsibilities between staff, has recently commenced and will continue into the new year. While an increased focus on art and culture may have merit following the further evolution of the Arts Advisory Committee and confirmation of Council’s priorities with respect to arts and culture, a reallocation of the roles and responsibilities of staff within the Community Development Business Unit at this time would be premature, and may have undesirable and/or unforeseen consequences on the management of staff and the delivery of existing projects and programs.
