7.2.1 Community Event Forum

At the Council Meeting held 9 June 2009, Councillor Crutchett asked the following question.

Why the City of Holdfast Bay is not using its own facilities for the community consultation?

The General Manager City Services, Ms R Thomas at the meeting took the Question on Notice and the answer is presented below.

The General Manager City Services, Ms R Thomas’s response.

The Community Events Forum is scheduled for Thursday 25 June at the Glenelg Surf Life Saving Club at 2:00pm. The Surf Life Saving Club was selected as it was considered the most suitable venue for the forum (easily identifiable location, disabled access, large open space suitable for activity proposed, and quality catering facilities). Furthermore, hire of the venue was provided free of charge. The Glenelg Community Centre was considered but was unavailable for day hire as the Glenelg Community Club Inc has structured daily recreational and social activities.

7.2.2 Outstanding Action List

In accordance with his notice, Councillor Crutchett asked the following questions:

7.2.2.1 What motions passed by this council since the 28 November 2006 that have not been actioned by the administration or have been partially actioned:
7.2.2.2 What measures could be put in place to ensure elected members and stakeholders can easily review outstanding motion without having to open every set of minutes to review the motions?

10. MOTIONS ON NOTICE

10.1 Letter of Thanks to President of the Friends of Holdfast Bay Library Service

In accordance with the notice:

C230609/362 Councillor Deakin moved and Councillor Bouchée seconded that Council write and thank Mrs Lyn Magee for her success and service as President of the Friends of Holdfast Bay Library Service.

CARRIED

Background
Mrs Lyn Magee will end her term as the President of the Friends of Holdfast Bay Library Service at the Annual General Meeting being held on 1 July 2009.

Mrs Magee has been President since July 2006, under which the Library has had some wonderful triumphs, particularly the Palindrome Festival. The Libraries are still undergoing significant review, and I know that Lyn will continue to have and provide a valuable relationship and contribution to the Friends Service.

10.2 Budget 2010-2011 Formulation

In accordance with his notice:

C230609/363 Councillor Crutchett moved and Councillor Bouchée seconded:

1. That Administration commences work on the 2010-2011 Budget based of a revenue rate increase of 4% as outlined in the City of Holdfast Bay Long Term Financial Plan.

2. That Administration continues to budget to maintain the community’s assets in accordance with the Asset Management Plans to ensure we are not placing excessive burden on future generations.

3. That Administration report on establishing an auditable “Efficiency improvement program” that can deliver a sustainable 2% or greater efficiency gains on the operational budget. (*This process has been adopted by some councils.*)

CARRIED

Background

The object of this motion is to reinforce for our ratepayers that we have a clear direction that will enable council to have sustainable revenue increases that will enable maintenance of services.

It is irresponsible to put off essential maintenance expenditure for future generations to pick up. The State Government has been very critical of Council over the maintenance issues on the King Street Bridge (some undeserved) however they have legislated to ensure councils manage their assets responsibly.

We must look for sustainable efficiency gains. Many of our private companies are suffering from short term CEO's making unsustainable cuts to their business models.

The same analogy can be projected to service industries, like a council.
11. ADJOURNMENT (TO ENABLE PERMANENT COMMITTEES TO MEET) (7.15 PM)

C230609/364 Councillor Beh moved and Councillor Looker seconded that Council stand adjourned to enable the permanent Economic and Corporate and Environment and Engineering Committees to meet.

- Enabling elected members to understand the high cost to the community of maintaining multi-use assets and the needs of these assets.

- Workshop any opportunities that may allow the rate burden to be reduced by asset consolidation and refurbishment.

**Background**

I have had the opportunity to benefit from similar excursions around Glenelg Oval and the Brighton Caravan Park.

Some people are suggesting the community has reached its capacity to pay and it is time we worked smarter and not harder in our management of assets. It will give the new Chief Executive Officer an opportunity to view these sites with Elected Members and help develop opportunities to reduce costs.
